

Burning (Programming) Tools – Brief Description

24 June 2014

There are two folders:

1. Board_Firmware_Update-Essential_Utilities

This folder is under the **root** folder. It contains ~16M free public files (for all board versions) released by Spectrum Digital, and two PDF instruction files.

Refer first to the instructions in:

'Installing the Programming Tools.pdf'.

Once you applied these instructions, refer to

'Programming the DSP.pdf' for the regular usage of the burning (programming) utility.

2. LCIC-WIM - **xxx - Board_Firmware_Update-Up-to-date_Version**

(**xxx** is the specific type of your board.)

This folder is under the folder of the **specific type of your board**.

It contains the proper recent board firmware(s) file(s) for type **xxx**.

In details:

- * Under the folder "LCIC-WiM - **Basic**" there is the folder
"LCIC-WIM - **Basic** - Board_Firmware_Update-Up-to-date_Version".
- * Under the folder "LCIC-WiM - **CatchWeigher-mode**" there is the folder
"LCIC-WIM - **CatchWeigher-mode** - Board_Firmware_Update-Up-to-date_Version".
- * Under the folder "LCIC-WiM - **CheckWeigher-mode**" there is the folder
"LCIC-WIM - **CheckWeigher-mode** - Board_Firmware_Update-Up-to-date_Version".
- * Under the folder "LCIC-WiM - **WiM-mode**" there is the folder
"LCIC-WIM - **WiM-mode** - Board_Firmware_Update-Up-to-date_Version".
